

SAFETY DATA SHEET

Section 1: Product and Company Identification

Product Name	WORKHORSE™ Direct to Metal Latex Paint
Product #	3475, 3400, 3450
Product Use	Architectural Coating
Manufacturer	Visions Quality Coatings 4105 South Market Court Suite A, Sacramento, CA 95834 Tel: 916-564-9121
Emergency Responders	800-424-9300

Section 2: Hazards Identification

GHS Pictograms	
Physical Hazards	Not Classified
Health Hazards	Not Classified
OSHA Defined Hazards	Not Classified
Prevention	Do not handle until all safety precautions have been read and understood. Observe good industrial hygiene practices.
Storage & Disposal	Keep container closed when not in use. Do not transfer content to another container for storage. Leftover materials and containers must be disposed of in accordance with local rules and regulations.
Response	Wash hands thoroughly. If skin irritation occurs, seek medical advice/attention. In case of eye contact, rinse cautiously with water for several minutes. Seek medical attention if irritation persists.

CAUTION: Prolonged or repeated contact may dry skin and cause irritation of the eye and respiratory system.

Section 3: Composition/Information on Ingredients

Components	CAS #	Est. Weight %
TITANIUM DIOXIDE	13463-67-7	10-40%
ACRYLIC POLYMER	NOT HAZARDOUS	10-40%
WATER	7732-18-5	5-10%
BONDING RESIN	SUP. CONF.	1-6%

Section 4: First Aid Measures

Eye contact	In case of eye contact, rinse cautiously with water for several minutes. Seek medical attention if irritation persists.
Skin contact	Immediately remove contaminated clothing or PPE and wash skin with soap and plenty of water. If skin irritation occurs, seek medical advice/attention.
Ingestion	If swallowed, immediately rinse mouth. Do not induce vomiting. Keep person under observation. Seek medical advice immediately or Poison Control Center.
Inhalation	Remove to fresh air. Consult physician if any discomfort continues.

Section 5: Fire Fighting Measures

Suitable extinguishing media	Use extinguishing measures that are appropriate to the situation and surrounding environment. Alcohol resistant foam, Carbon Dioxide, dry powder, water, or fog.
Firefighting procedures	Self-contained breathing apparatus and full protective clothing must be worn by those firefighting.
Unsuitable extinguishing media	No data available.
Specific hazards arising from the chemical	Product is non-combustible but thermal decomposition may produce gases hazardous to health.

Section 6: Accidental Release Measures

Personal precautions	Ventilate Area to prevent build-up of vapors. Use personal protective equipment (PPE), safety glasses, and respiratory protection.
Emergency procedures	Prevent further spillage by stopping the flow of the material if safe to do

so. For small spills, soak up with absorbent materials. For larger spills, dike area with absorbent material and scoop up liquids.

Environmental precautions Avoid entry into sewers and water ways. For waste disposal, see Section 13 of this SDS.

Section 7: Handling and Storage

Handling Use only with adequate ventilation. KEEP OUT OF THE REACH OF CHILDREN. Avoid contact with skin, eyes, and clothing. Avoid breathing vapor. Wear appropriate personal protective equipment. Wash thoroughly after handling. Observe good industrial hygiene practices.

Storage Store upright in original sealed containers away from heat and flame. Avoid extreme temperatures and freezing.

Section 8: Exposure Controls and Personal Protection

No exposure limits noted for ingredient(s) listed. Engineering controls shall be used to control airborne levels below recommended exposure limits.

Eye/Face Wear appropriate safety glasses with side shield (goggles).

Skin Protection Wear protective gloves and protective clothing.

Respiratory Protection In case of insufficient ventilation, or irritation is experienced, use NIOSH certified, air purifying respirators with N-, P-, or R- series particulate filter and organic vapor cartridges.

Hygiene Considerations Observe good personal hygiene measures such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Section 9: Physical and Chemical Properties

Appearance:	
Physical state	Liquid
Form	Liquid
Color	Various
Odor	No information available
Ph	6-9
Maximum VOC	<50 Grams Per Liter
Melting point/Freezing point	No information available
Boiling point/Boiling point range	>100°C / 212°F
Flash point	>100°C / 212°F
Flammability	
-Upper flammability limit	No information available
-Lower flammability limit	No information available
Vapor pressure	No information available
Vapor density	No information available
Viscosity	80-120 Ku @ 85°F

Section 10: Stability and Reactivity

Reactivity	This product is non-reactive under normal conditions of use, storage, and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reaction	None under normal processing.
Conditions to avoid	Avoid extreme temperatures.
Incompatible materials	Contact with incompatible material such as strong oxidizing agents and strong acids should be avoided.
Hazardous decomposition	Thermal decomposition may produce gases hazardous to health.

Section 11: Toxicological Information

Inhalation	In high concentrations, vapor and spray mists are narcotic and may cause headache, fatigue, dizziness and nausea.
Ingestion	Expected to be a low ingestion hazard.
Skin contact	Chronic exposure or repeated contact may dry skin and cause dermatitis.
Eye contact	Direct contact with eyes may cause temporary irritation.

Organic solvents may be absorbed into the body through the skin and may cause permanent damage to the Nervous System including the brain. Potentially carcinogenic components are typically only present in trace amounts.

Section 12: Ecological Information

Ecotoxicity	No information available
Persistence/Degradability	No information available
Bioaccumulative potential	No information available
Mobility in soil	No information available
Other information	This product is not classified as environmentally hazardous. However, this does not exclude possibility that large or frequent spills can have a harmful or damaging effect on environment. This product is miscible in water and will spread in water systems. An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Section 13: Disposal Considerations

Product	Do not allow this product to drain into sewers/water supply.
Waste from residues	Dispose of in accordance with local regulations.
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling and disposal.

Section 14: Transport Information

DOT	Not regulated
TDG	Not regulated
IATA	Not regulated
IMDG	Not regulated

Section 15: Regulatory Information

This product is hazardous according to OSHA 29 CFR 1910.1200. With that said, this product does not present an immediate hazard, fire, pressure or reactivity hazards.

Section 16: Other Information

Issue date	December 31, 2014
Revision date	July 17, 2018
